

Offshore Discoveries

MC run sheet · 10 questions · 30 seconds each · answers in **green**

BEFORE YOU START

"Scan the QR code on the screen, type your name, and you're in. No app, no login. Ten questions, thirty seconds each. Faster and more accurate scores higher."

Q1

SELECT ALL THAT APPLY

SAY THIS

This one has more than one right answer. Tap every answer you think is correct, then press submit. Careful — wrong picks cancel out right ones, so don't just tick everything.

Select two or more surveys required for geohazard assessment before drilling an exploratory offshore well

- ☐ A) Rig acceptance audit
- ✓ ☒ B) Geotechnical survey
- ☐ C) Reservoir simulation study
- ✓ ☒ D) Geophysical survey

Q2

SLIDER

SAY THIS

Drag the slider to your best guess. You don't have to be exact — the closer you are, the more you score.

In what year was the Kuwait offshore 2D seismic survey acquired?

Slider 2000 – 2025 → **2014**

Q3

SLIDER

SAY THIS

Another slider. Have a guess — closest wins.

How many separate authorities were involved in securing approvals and permits before drilling NO-0001?

Slider 0 – 40 → **12**

Q4 TAP THE MAP

SAY THIS

You'll see a map of the Kuwait offshore concession. Tap where you think the field is, then confirm. You don't need to be precise — the right general area scores well.

Locate Al-Nokhatha offshore field on the map

Tap the map → **The Al-Nokhatha field**

Q5 PICTURE REVEAL

⚠ Explain this one before you start it — people need to understand the gamble before they lose it.

SAY THIS

This picture starts blurred and sharpens every few seconds. Answer as early as you dare — a thousand points now, dropping to seven hundred, four hundred, then one hundred. But get it wrong and you're out of this question. Wait, or gamble?

What type of rig is this?

- ✓ **A) Jack-up**
- B) Semi-submersible
- C) Drillship
- D) Spar platform

Points by stage: **1000** → **700** → **400** → **100** · a wrong answer scores 0 and locks that player out

Q6 SLIDER

SAY THIS

Slider again — closest guess wins.

In what year was JZ-0001 discovered?

Slider 2010 – 2026 → **2025**

Q7

SELECT ALL THAT APPLY

SAY THIS

More than one answer again. Pick every well you think is right, then submit.

In which of these wells was the Minagish discovered?

- ✓ **A) NO-0001**
 - B) JL-0002
 - C) HA-0001
 - ✓ **D) JZ-0001**
-

Q8

SELECT ALL THAT APPLY

SAY THIS

Same wells, different question. More than one is correct.

In which of these wells was oil discovered?

- A) HA-0001
 - ✓ **B) NO-0001**
 - C) JZ-0001
 - ✓ **D) JL-0002**
-

Q9

MULTIPLE CHOICE

SAY THIS

Just one answer this time. Which of these is NOT offshore?

Which of the following is not an offshore well?

- A) HA-0001
 - B) RI-0001
 - ✓ **C) HU-0001**
 - D) ZU-0001
-

Q10

THE FINAL BET

⚠ Two parts. Explain the wager first, let the bets come in, then lock them and show the question.

SAY THIS — PART ONE

Last question, and it's double or lose. Before you see the question, you choose how many of your own points to bet — anything from nothing to everything. Get it right and you double your bet. Get it wrong and it's gone. You have thirty seconds to decide.

Wait for the bets to come in, then lock them.

SAY THIS — PART TWO

Now the question.

Does acquiring more data always reduce exploration risk?

A) YES

✓ B) NO

Right = double the wager · Wrong = lose it · Nobody goes below zero

CLOSING

"That's the last question — let's see the final standings."

Top 10, medals for the first three, confetti for the winner.

Quick reference

	FORMAT	ANSWER
1	Select all that apply	Geotechnical survey + Geophysical survey
2	Slider	2014
3	Slider	12
4	Tap the map	The Al-Nokhatha field
5	Picture reveal	Jack-up
6	Slider	2025
7	Select all that apply	NO-0001 + JZ-0001
8	Select all that apply	NO-0001 + JL-0002
9	Multiple choice	HU-0001
10	The final bet	NO

If something goes wrong

- **Someone joins late** — fine, they play every remaining question.
- **Two people with the same name** — the second becomes "Sarah 2".
- **A phone locks or refreshes** — they keep their name and score.
- **Nobody answered** — reveal anyway; it simply scores nobody.
- **You need to jump to a question** — click it in the list on the control panel.
- **Everyone answers early** — the round closes on its own, no need to wait out the clock.
